Prez Sez

Another month is upon us; it seems like I just wrote a PrezSez for last month, although February is a short one. It looks like Buckeye Chuck was right and winter is again in full force. My shovel and snow blower are earning their keep this year. Although it is a short month it has been busier than usual. I am a member of the Cuyahoga Community College's Speakers Bureau and talks are picking up again. The topics I present on Cybersecurity are in high demand. Luckily the day/nights I was scheduled, the weather cooperated and the groups I presented for were

great. They even fed me at one with some good food.

If you have not heard, the VE team will begin using the new digital testing format starting in March. This meant I assisted with setting up a sandbox environment to try this out and helped everyone through the new process. Candidates can register and fill out the forms online at HamStudy.org. The VEs can use a mobile device's camera to grade an answer sheet and sign and submit forms online.

Continued on page 2

The Membership Meeting will be Monday, March 17 at 7:00 PM.

North Olmsted Library, 27403 Lorain Rd.

NetLogger with Eric, KE8VZA

Have you heard the Net Control on some of the nets say they see so-and-so on the blue screen? Those checking in and the Net Control are using NetLogger. Learn the ins and outs of this logging program.

NOARS Meeting via Zoom

Nets

NOARS nets are Tuesday nights at 8 PM on 28.370 MHz, Wednesday nights at 7 PM on 146.700 MHz, PL 110.9, and Thursday nights at 8 PM on 146.700 MHz, PL 110.9. All licensed amateurs are welcome. Participation is encouraged and appreciated.

Meeting ID: 864 4196 5871

Passcode: 453563

Continued from Prez Sez on page 1

I participated in the 2025 WWA and had QSOs on 7 bands in voice and digital modes. It was nothing to write home about but enough to get the certificate. I also had a chance off and on to do FT8 and contact some POTA stations during the day.

Reading the most recent edition of QST, I noticed on page 76 and 77 they have the results for the 2024 IARU HF World Contest. I placed sixth 6th in the Single operator, Phone only, Low power US/Canada category. This is the first time I saw my callsign in (digital) print.

I wrote before about one of the major scanner companies going out of business. It was interesting to see a review of

the Whistler scanners in QST the following month. Well, it gets more interesting as a Cincinnati based company, Goliad Products, has acquired the assets of The Whistler Group. Especially since the owner of this new company acquired other companies, with the biggest being an online bird seed supplier.

March looks to be an upcoming busy month with VE testing on March 1st, NOARS Winter Hamfest on March 9th at 9:00am (don't miss it) and the monthly meeting on March 17, St Patrick's Day.

73'

John W8LYO

NOARS Winter Hamfest 2025

The NOARS Winter Hamfest will be on **Sunday, March 9, 2025 from 9 AM until Noon**. Vendor setup is at 7:30 AM. It will be at:

**Lorain County Community College
John Spitzer Conference Center
Reaser Grand Room
1005 North Abbe Road
Elyria, OH
41 deg 24' 38.85" -82 deg 04' 18"**

Admission is \$10 a person, but children under 12 years old are free. Tables are \$15 each. Get your table reservations in early so we can get you the best table configuration. For table reservations contact: John Dolinar, W8LYO at (216) 276-8871 before 9 PM (EST) or email at winterhamfest@noars.net.

The Hamfest flyer is at the end of the newsletter.

Hams in HOAs May be Able to Raise Antennas!

The Amateur Radio Emergency Preparedness Act was re-introduced by U.S. Senators Roger Wicker, R-Miss, Richard Blumenthal, D- Conn., Representatives August Pfluger, R-Tex., and Joe Courtney, D-Conn, to restore the right to Amateur Radio operators to install the antennas necessary to serve their communities.

According to Senator Wicker, "The Amateur Radio Emergency Preparedness Act would remove unnecessary roadblocks that could help keep communities safe during emergencies like tornadoes, hurricanes, and fires." "When disaster strikes, amateur radio operators provide

vital, often life-saving information, which shouldn't be hindered by prohibitive rules or confusing approval processes."

Senator Blumenthal concurs, saying, "When disaster strikes, amateur radio operators provide vital, often life-saving information, which shouldn't be hindered by prohibitive rules or confusing approval processes. To read the full article, go to

<https://www.arrl.org/news/amateur-radio-emergency-preparedness-act-re-introduced>

March 2025 Social Events

Tuesday Lunch will be on **March 4 at noon** at **Golden Corral** in **Elyria, 1519 West River Rd.** All are welcome!

Weekend Lunch will be on **Saturday March 8 at noon** at **Aladdin's Eatery, 151 Crocker Blvd., Westlake.** All are welcome!

New Member

John Gruber, N8MSU, of Oberlin. Welcome, John!

The Storied History of the Ham Radio Call Sign by Mike Ritz, W7VO

Submitted by Elaine, KC8FOS, originally emailed to CW Class graduates by instructor Dave, AC8TN. Thank you, Dave.

Ann, KA8ZEP and Dan, W8JAF and POTA at Mt Gilead, US-1979

One of the great things about the somewhat warmer weather is that folks can do POTA in a car without freezing. So, off Dan and Ann went to Mt. Gilead State Park. Both operated FT8. Dan had wanted to operate on

CW but Logger32 and WKMini WinKeyer were not keying the rig, due most likely to a software issue. After packing up they headed to a restaurant for a date, which sounds like a good end to a good day.

Pets of Ham Radio

Do you have a pet you would like others to see in the Log? They can be pet you currently live with, or those

you love from the past. Send us information about them and photos as jpegs.

Pets of Ham Radio: One-Eyed Jack Porter, and Back Yard Friends

This handsome boy is Tom, W8KYZ and Pat Porter's 13-year-old blind Boston terrier. If any of you have met OEJ, you know him as a curious and energetic whirl of motion who loves being patted.

The beautiful deer have been frequent visitors to the Porters' yard over the years.

Pets of Ham Radio: Mr. Wilson

Jeany, KC3QND writes: Mr. Wilson, one of a litter of 10, was born July 8, 2022. When the puppies were 3 weeks old, the owner began posting photos on Facebook of the puppies. Each puppy wore a different color collar to avoid mix-up when chosen. Mr. Wilson's dark blue collar wasn't really needed since he stood out as the largest of the litter.

In his photos, Mr. Wilson seemed to look right into my heart. Finally, on the post when they were five weeks old, a sister and he were the only ones left. Pete, KE8NQK said, "Call. We want him!"

He was a 15-pound ball of fur. It wasn't long until he had Pete and I wrapped around his big paw. He loves car

rides, fluffing up piles of leaves, and chasing squirrels up trees. After being pulled over in our lawn chairs or just trying to hold him back on his leash, he learned that he has to slow down a LITTLE!

Elaine and Tom Wilkinson are his god parents. They too fell in love with him at the NOARS fox hunts. Mr. Wilson took to Tom right off and always looked for that big pat and rubs that he'd get every time Tom was around.

Mr. Wilson has been a great addition to our pet family. We enjoy every crazy moment of having a 180-pound playful dog who, when he stands on his hand legs, is almost 6ft tall. Some days we say, "WHAT WERE WE THINKING?"

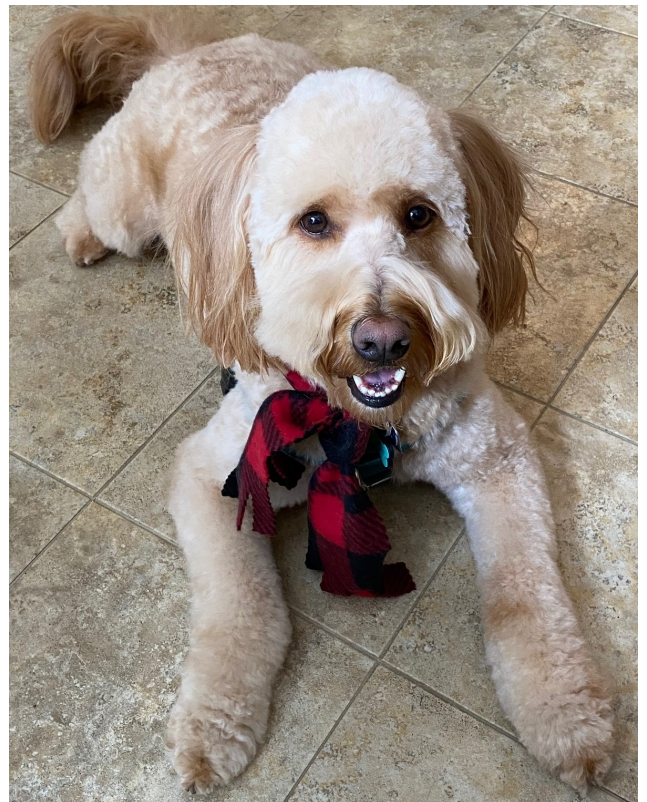

Pets of Ham Radio: Sweety Belle Beckman

Sweety Belle was named by Bill Beckman, N8LXY's three-and-a-half year old daughter who was fascinated by the My Little Pony stuff at the time. Sweety Belle was born around Memorial Day in 2008. She was a Yorkshire Terrier and Pomeranian mix. She was a very energetic dog that would hunt chipmunks and bark at the fence with the dogs next door when she was a youngster. She chewed dolls and toys like a dog twice her size. She loved going for walks around the block and on the path in the park. She loved to chase the squirrels out of the yard. We have too many of them in this area; just ask Bill, K2WJS who lives across the street.

Pets of Ham Radio Fergus Oh! Riley

Meet Furgus, a 2 1/2-year-old mini golden doodle rescue who lives in the Bill O'Riley, N8JET household. His full name is Furgus Oh! Riley. At 40 pounds, he's as big as he will get. He can bark at 10 wpm, and 125dB!

Pets of Ham Radio: Annie Dolinar

Annie, now 11, was found in a dumpster in Portage County, beer-soaked and flea-ridden. Janeen Dolinar followed Annie's story and called almost daily about her and then drove an hour to get her when she was ready. John, W8LYO says, "Annie has become the most loving cat of all the ones we have had and suffered no ill effects from her traumatic beginning, other than some stunt in growth. She loves to play with pompom balls and her favorite toy is Fred, a small mouse that makes noise when you shake it."

For more on her rescue, go to <https://www.cleveland19.com/story/23349201/beer-soaked-kitten-found-in-closed->

Pets of Ham Radio: Ruby and Allie Reich

Chuck Reich, W8CGC reports: Ruby is our "Pound Hound". She was dropped off at our local shelter about 3 years ago. We went looking and fell in love with her. She came to join our family which included the boss of the house, our cat Allie. Allie and Ruby made several trips in our RV with us, including wintering in Arizona and spending time visiting our national parks. Ruby enjoys

chasing balls and lying in the sun. She is often found sleeping in a cat bed which is probably because she thinks she is a big cat!

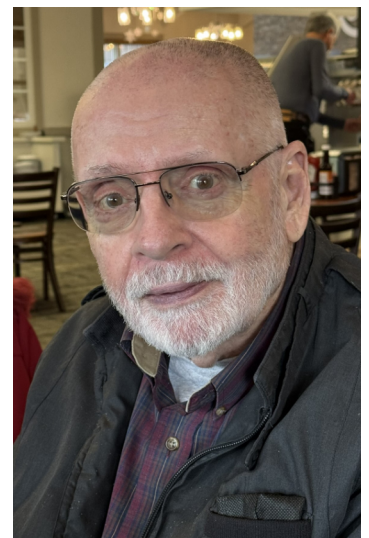

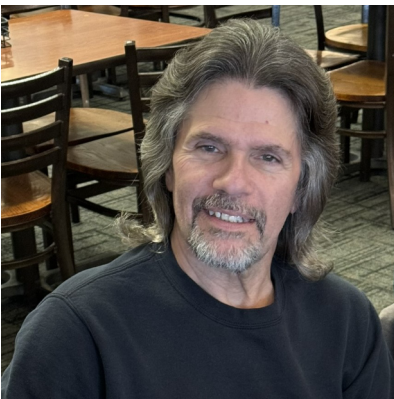

We lost Allie last year at the age of 16. It took Ruby several months to get back to normal, as they were definitely buddies.

February Tuesday Lunch

Lunch at the Golden Corral was enjoyed by seventeen friends and family. Joining us for the first time was Billy Squires, WB8SVW, son of Judi, WD8ASV and Bill

Squires, N8WS. The Tuesday Lunch is the first Tuesday of each month at noon at the Golden Corral, 1519 West River Road in Elyria. All are welcome.

February Weekend Lunch

Japanese cuisine was enjoyed by the twelve friends and family who gathered at Red Lantern in Cleveland on February 8. Joining the group for the first time were

Elaine McLaughlin, KF8DDH, her daughter Lonny McLaughlin, KF8DCD, and Linda Fox, KM4GSF. Welcome!

NOARS Membership Meeting Minutes

February 17, 2025

Submitted by Connie, K8CCS

The meeting was held in person at North Olmsted Public Library, and via Zoom. It was called to order at 7:00 p.m. by club President John, W8LYO.

Total number of people in attendance: 30 (22 attended in person; 8 attended via Zoom).

Pledge of Allegiance.

Introductions and roll call of all in attendance.

Motion to accept the January 2025 meeting minutes as published in the NOARS Log was made by Dan, W8AJF; seconded by Ed, KA0MRD. Minutes accepted.

Treasurer Report– As read by John, W8LYO (Eric, KE8VZA not in attendance).

Deposits: \$471.00: Dues and hamfest table income.

Expenses: \$464.17: Reservations for POTA pavilion, deposit for holiday party at Houlihan's, and reimbursement for gift cards given at holiday party.

Motion to accept the treasurer report was made by Tom, W8KYZ; seconded by Bob, W8OOT. Treasurer report was accepted.

COMMITTEE REPORTS

Hamfest – John, W8LYO – Hamfest is March 9, 2025. We have 19 tables reserved. A little more than half of the tables are paid for. We gave a few tables away because of a large donation at the hamfest last year. The press releases are out thanks to Elaine, KC8FOS and Michael, KF8BNF. This generated more table reservations and a steady amount of calls this week.

Repeater – As read by John, W8LYO (Carl, W8KRF not in attendance) – No change. We will go out to look at the repeater once the weather is warmer to see why the volume is low for EchoLink and AllStar Link.

Club Property – As read by John, W8LYO (Carl, W8KRF not in attendance) – No change in club property.

Membership – As read by John, W8LYO (Carl, W8KRF not in attendance) – We have 140 members. There have been no new members since the January meeting.

Parliamentary – Tom, N8FDY. Nothing for Parliamentary. Articles for the newsletter must be submitted by February 24, 2025. We are starting a new feature, Pets in the Shack. If you have a ham shack pet, send us your picture. If you have any items for sale and don't want to wait for the Hamfest, send me your ad. Or, buy a table at the Hamfest and sell it there.

Social Committee – Andrew, KE8WMS – We had a great lunch last month at the Red Lantern. We are planning next month's lunch and will let you know the details.

POTA – Will be held at Tinkers Creek, Liberty Park, on May 31, 2025. Permits are set up.

The Social Committee will be meeting on the 27th to discuss some other upcoming events.

Program – Paul, KE8WHG – David, K8DV will present tonight – Making the Most of Your HF Radio. David, we appreciate your taking time out of your busy schedule to be here tonight. The March program will be Eric, KE8VZA – Net Logger.

Nets – Jeany, KC3QND – Everything is good with the nets. With Josh, KE8YUG and Sara, KC8KSU being temporarily unavailable to handle nets, we are short a few net controllers. Elaine, KC8FOS and Dan, K8AGW are helping to pick up the slack. Contact Jeany if you are interested in becoming a net controller.

VE Test – Elaine, KC8FOS – NOARS is moving to electronic testing using GradeCamm starting March 1st. We will have a practice session at Fairview Park Library which is the location of the testing. John, W8LYO is the team lead and working with Elaine for this electronic testing. If you

Continued on page 15

Continued from page 14

are an Extra, or planning to be an Extra, and are interested in joining the VE team, contact Elaine.

Old Business – None

New Business – Josh, W8HRF is from SARA. SARA is setting up a multi-club POTA event. They are informally calling it the Northeast Ohio POTA Activation. They would like to make this a yearly thing. The goal is to get more clubs to work together to grow the hobby. The event will be May 31st.

Chuck, K8CVM, has offered to bring the ARES trailer to club activities on a first come first. served basis.

Hamfest is March 9, at Lorain Community College. Remember it is a “move the clock day.”

Motion to Adjourn the meeting was made by Andrew, KE8WMS; Seconded by Elaine, KC8FOS.

Meeting Adjourned 7:17 p.m.

Presentation: David, K8DV – Making the Most Out of Your HF Radio.

THE BEST GEAR...RIGHT HERE!

Check out our more spacious Showroom Monday through Saturday, 9 am to 5 pm. Or place your orders and pick them up at the curb. Here's how:

- Pick-up available from 9 am – 8 pm, Monday-Saturday and 9 am – 7 pm, Sunday.
- Place your order at DXEngineering.com or by calling 1-800-777-0703. All orders must be prepaid.
- Pull into a designated curbside pickup space in front of the Summit Racing Retail Store. You will need valid ID, your order number, and the physical credit card you used or Pay Pal receipt.
- Only the person who purchased the item may pick up the order.

We look forward to seeing you!

Ad Submission Guidelines

Electronic ads may be emailed to noarslog@noars.net.

Printed ads may be sent to NOARS Log, 161 Herrmann Drive, Avon Lake, OH. 44012. The deadline for submissions is seven days before the first day of each month. All must include: asking price, sellers name, call sign and phone number. Only ads from current NOARS

members, or paid advertisers will be accepted. If your items sell, please notify the Log editors at noarslog@noars.net so the ad can be removed. All ads will be removed (unless updated) after four months. NOARS reserves the right to refuse any ads.

For Sale by Chuck, W8CGC

Radio Shack HTX-10 Mobile Transceiver. This is a 10 Meter only transceiver.

I purchased this radio about 9 months ago and made many contacts on it as a Technician Class.

I moved to an all-band radio when I took the General exam and now would like to see this radio go to someone that can get some contacts in the log. I know the club has some new Technician class members.

It includes the original microphone, mobile mount, and a 12 Volt power cable for your power supply or auto.

I am asking \$75.00 but if interested please make me an offer.

Call or Text Chuck 440-346-5491

PERFECT CB
&
PERFECT 10
by COMPACtenna

An optimized radio-antenna system is one with dedicated radios that operate on dedicated frequency bands with dedicated antennas in fixed installation. COMPACtenna has optimized performance with dedicated CB (~69") and 10-Meters (~65") models. CB Perfected with model 'PERFECTCB' - Ultimate CB Performance! Ham 10 meters Perfected with model 'PERFECT10' Ultimate Performance!

Novel Engineering
Quality Machining & Skillfully Hand-Crafted
Each antenna is precisely tested/tuned in THE USA.

Mount on vehicle at a sensible location appropriately.

A variety of 3/8"-24 thread sturdy mount types are available on the market.

Limit horizontally adjacent near field parasitic interaction –
keep antenna substantially above nearby metal.

Always check SWR; operate only per transmitter specifications.

~69" tall - Tuning can be done by adjusting whip position in Ferrule, or trimming whip.

SWR frequency range varies with vehicle construct, and where on the vehicle the antenna is mounted.

Base Station application: This also applies to mounting the antenna on other ground plane counterpoise metal such as a house/shed/building metal roof, a metal railing, etc.

The frequency shifts about 0.1 MHz with 1/2" change in length;
increase in length lowers frequency; decrease in length raises frequency.

(V)SWR: Nominal < 2:1 [Often 1.1-1.5:1]

Gain: Nominal 7(+)-dB-MEG-Mean Effective Gain in the dynamic obstructed environments of the world we live in, with COMPACtenna's 'PERFECTCB' diverse EM (ElectroMagnetic) fields – phase diversity in same and orthogonal polarizations-elliptical polarization

Maximum Power Rating: 500 Watts

Under normal use and conditions

Each Antenna is quality checked and tuned. Keep antenna and mount contacts – area clean.

Removing, re-attaching antenna repeatedly is not recommended. See www.COMPACtenna.com for further information.

[Design and specifications subject to change without notice.]
