### PRESIDENT'S MESSAGE

ELECTION--About the time you receive this you will also get by a separate mailing your ballot for election of officers. Please get your ballot in the mail so it can be counted at the meeting Nov. 17. The FO box will be cleared the afternoon of the 17th. Any ballots received after that will not count. You can bring your ballot to the meeting and it will be counted. However you do it, please vote. It is very important that we have a good representation of our membership.

For your information a brief description of each candidate is given elsewhere in this issue of the Log.

LOG EDITOR--We still need an editor for the Log. This is the last month I will assume full editorship of the Log. It is enough to be president, without this added responsibility. I am willing to do some of the writing. I have lined up help with the mechanics of putting the paper together, which is the time consuming job. Unless someone comes forward there will be probably be no Log next month. The major responsibility of the editor is to assemble material for publication that will be of interest the reader and see that it is printed, assembled, and mailed.

LOG COVER--Several people have pointed out errors on the cover, particularly regarding ARRL apointments. If you know of corrections that should be made (either additions or deletions) please let me or the new editor know of it. Revising the cover necessitates a costly typesetting job, so we wont do that until the new officers take office the first of the year, when their names would have to be changed anyway.

George WBANM
