Fall In NOARS Country

Well the leaves are turning and so is the clock on the wall. Time to get all the holes you made in the house to get that coax in sealed up. And take a pot of grease up the tower for that bearing that you've ignored the last few years. Hmm? A little paint on that tower bracket while you're there? Getting a ham shack ready for the winter is a ritual that we in northern Ohio are so used to doing.

We've all heard the line that "no news is good news" and it sure seems like the news these last few days is no exception. Sitting in front of the television and watching the events in the south unfold and watching the worst of human nature doled out to us on a twenty-four hour a day basis I found myself having to forcibly turn away from the disaster(s) both natural (and otherwise) unfolding on the South coast. I turned to the hobby to find something positive.

And as usual I was not disappointed. Although bands were crummy I heard stations all thru the south doing what we do best. COMMUNICATE!. Hearing the main stream media report time and time about the lack of communications, coordination and cooperation during this stressful time. All they had to do was to tune in the ham bands. For us the three C's are the rule instead of the exception. Oh sure there are a few bozo's out there! But by and large what I heard was hamradio doing its business as usual. Carrying health and welfare traffic and just being where we needed to be. When we needed to be there! And as usual our "friends" in the main stream media by and large ignored us nearly completely. Well I for one want to thank our members and the ham radio community in general for once again being truly the unsung hero's that they are. Thanks gang!

Last on the list is the formation of the 2005 nominations committee. Headed by myself and KD8SC Rosemary. So far the nominees are:

President:

WD8IQJ John (incumbent) – (unopposed to date)

Vice President:

N8CX Al – (unopposed to date)

Treasurer:

W8KYZ Tom (incumbent)– (unopposed to date)

Recording Secretary:

KA8VTS Darlene (incumbent) – (unopposed to date)

Hopefully we can add to the ballot by next printing.

NOARS DOT NET NEWS

Excerpt of article By K8JWS John - Webmaster noars.net

Hi All! I just wanted to take a minute to tell you about the new and improved NOARS website. First of all, the sites web address is now www.noars.net. Soon we will be disabling the old geocities site with a pointer and link to this address. The new site is best viewed with your display set to 800 X 600 resolution (or higher). The entire site is being reworked, including the addition of new pages and the updating of the existing pages. Of course this is a work in progress and we would like to hear your ideas. If you have any comments and ideas, please send them to webmaster2005@noars.net. Some of the old pages already updated are the field-day and hamfest pages. Plans are in the works for a memorial page recognizing our clubs silent keys. Also, a picture album page that members can submit their favorite pictures to and see them posted on our site. More details and some of the technical issues involved will be in forthcoming articles in this column..

As of this printing our UHF repeater 444.8 has been removed from service. As it was acting wacky and making some rather annoying noises. So it was taken off to the repair bench. N8PZD Clark estimates down time will be around three weeks. When it goes back up it will have improved functionality including the return of "BART" the DX alert.
