All are welcome on NOARS nets!

I know, I know! You're getting tired of hearing about Field Day and all that so I promise you this is the last time I'll say anything about it (in this column at least) this year. But right now I want to say thanks to all who came out and operated and otherwise participated. Here's a short list of people who did. *KA8VTS* Darlene, *K8JWS* John, *KD8DTG* Ryan, *N8PZD* Clark, *N8OFS* Andy, *W8KRF* Carl, *K8ECK* Dave, *N8CX* Al, *WD8OFG* Harold, *KC8TMZ* Sylvia, *K8PJS* Patrick, *W8KYZ* Tom and *KC8BQO* Ken were the licensed operators at the event but like I've been harping for the last two months: "You don't have to have a ticket to have fun at Field Day" We had a lot of participants who are either waiting for their tickets or are studying hard for it. They include: Tom Lizanich, Marie Valenjevic And Ashley Roberts in all we had 17 out twisting the knobs, working the bands and most importantly keeping track of the QSO's! Many thanks for making this another great Field Day @ NOARS!

NOARSFEST! July brings hot weather and hamfests! And the big one is the NOARSFEST @ Wellington. There are ads all over this copy of the log giving you the details so I'll not fill space here with them. But I want to note a few things. The number one thing on most of our minds is the price of fuel and how the big oil people are gauging us at the pumps. Just getting out to a hamfest is a major out of pocket expense for some of us. I'll offer you a little observation our venerable gate keeper shared with me. "Over 90% of the cars coming thru the gate are single occupant!" Wow! Maybe I'm dating myself but I remember car-pooling back when Fuel was only \$.60 a gallon. Now its \$3 a gallon? Let's see if you bring a friend that makes it \$1.50 a gallon. And if you bring 3 Friends you can turn back the clock to when it was \$.75. Problem solved! Now if I could just turn our clocks back to when fuel was that cheap! Never the less your participation is needed at the hamfest this year perhaps more than ever. Not to help set up, not to man the gates but to just be there bring a friend and support your club.

The NOARS special event station will be up and running *K8KRG* will be on the air and making contacts. Get on the air! Then come on out and pick up your instant QSL and get an eyeball on Al *N8CX*'s neat Field-day set up. The GOTA station!

See you all there I'll be at the main booth waiting on you.

Best 73 and CUL..... *John*

Field Day 2006

WOW! What a Field Day!

What do you get when less than 24 hours before the event the site you've planned on is lost? You have one of the most pleasant and best run event in most participants memories!

We were notified at 4:00 Friday that the equestrian center was closed due to the flooding of the Black River! Thanks to a lot of hard work and a ton of hasty calls made by N8PZD Clark. We were Re-located to the Indian Hollow Reservation just around the corner in Grafton Ohio. What a nice alternate site!

K8JWS John. Did a quick change of the canned message on the repeater. And WD8IQJ John Called around Notifying Station Managers of the re-location. By Six O'clock every one was off to the new site.

The stations were all up and running signing K8KRG 7A OH by 1800 z.! And about 17 operators and around 10 guests showed up both ham and non ham alike

The Numbers are not all in but everyone was reporting good results. Even 10 & 15 Meters were cooperating!

Look for the complete report in the August Log.

Welcome to NOARS!

Welcome aboard to the Following new members in June.

- Tom Lizanich - Associate member
 - N8OFS Andy Sargent - Renewal
 - KD8DTG Ryan Valenjeck - Joined AND operated at field day!
 - KD8DTG/XYL Marie Valenjeck - Associate Member who logged at field day
- Let's welcome the newcomers. And wish the Best of luck to the Associates as they pursue their tickets too!
