Spring is right around the corner!

I sure hope so! After a very mild winter; Although after February's blast of reality. We sure can't complain. Hopefully all the hardware stayed in the sky. But then again the old saying goes: "If the antenna stayed up thru the winter, you just didn't have it up high enough".

Well all that aside. Looking at the huge success the winter hamfest was. Not so much in numbers (although they were good too) but in the good time had by all. Even though to outside temperature was frigid every one who participated had that warm sense that a good time was in the works. Congratulations to the door prize winners:

- First Prize \$150 - Al Jones (non – ham)
- Second prize \$75 – Dale Reich K8AD
- Third Prize \$50 – Richard Keiper KC8VFE

And many thanks to those that donated door prizes that made coming to NOARS Winter * Ham * Fest. A big hit.

It's nice to see a group come together for the common good. The newly formed "NOARS Education" committee is plowing ahead with plans to start up a "Ham school" to help those interested in "the hobby"

Now's the time! NOARS needs it, and more importantly the very survival of the hobby depends on it! The handwriting is on the wall. Recent legislation in the west are aimed at undermining the usefulness of amateur radio by prohibiting mobile operations. The real threat of B.P.L. is being shoved at the public. We may not be out the door just yet. But we need to recognize "The hat" when its being handed to us! Where are the Barry Goldwaters? Of today? Arthur Godfrey is not on the air telling the public about us anymore. The league does what it can. But the real key is we need to replace the dwindling hamradio community with new hams! They will be the ones who will stand up for the hobby in the future. They will be the ones developing the new systems and pushing the new technologies. That will keep this hobby vibrant and on the cutting edge. Our jobs are to enjoy it. Our jobs are to encourage it! Not sit around and lament over the passing of a 150 year old mode of communications. Get out there! Do what you can! Get on the air! Talk to the kids! Get on the C.B. tell those guys that being a ham is a lot easier than it ever has been. YOUR HOBBY needs YOU ! lets make it happen!

Best 73 and CUL..... *John*

Winter Hamfest was enjoyed by about 160 who braved the biting zero and single digit temperatures. The pancake and sausage breakfast went over big. And gallons of hot coffee seemed to evaporate! Good deals were made and it seemed like every one was glad to get out of the shack escaping the winter doldrums. Nice to see you all!
