September, 2007 Volume 43 Issue 9

Welcome To N.O.A.R.S

Gee where did the year go? I'll bet that if you drag out last years issue nine I said the same thing last September! Well the same thing stands true this year! The first thing you notice is the days are getting shorter and the night time temperatures are getting into the fifties and even the forties. Next month will come the peak season for the turning of the leaves and then come the clambakes. (Shaking head) I should also point out its less than 126 days till Christmas! (Ho Ho Ho!) So get to work on that list for Santa, and at least keep the naughty to a minimum.

Well the September meeting will be a busy one as usual. One of the things on the agenda is the annual formation of the nominating committee. Who's job it is search out new candidates for the executive committee. So come one and all it's your turn to help lead this great group of hams into 2008. I can speak for myself that I for one will not appear on the ballot. After being the president for the last... *well let just say a long time. And leave it at that!* It's time for new ideas and new leadership. So here's my invitation. *YOU* need to step up and be the one for next year. It's a good gig especially with this great group of professional amateurs behind you!

Nice to see that the league had decided to make the greater Cleveland area the site for the great lakes division convention on September 22. Make sure you attend if you can. Meet the guys who are out there on the lines fighting the good fight that keeps you and your hobby viable in this world of major real threats to it. Meet the modern day pioneers in twenty-first century communications. It's YOUR hobby and here's a chance for you to get involved in a major part of it. See the additional flyer included in this newsletter for details.

This month you will receive your august update for the roster. And the next update is due in march 2008. please check your listing and make sure all the data is correct and accurate. Let us know right away

so we can make any necessary corrections. For future roster updates. Use the address(s) Below, thanks!
