From the Prez.....

It was great seeing just about every seat filled at the March meeting. I hope those who attended enjoyed the short video of Colonel Wheelock's tour of the ISS and demonstration of the ISS amateur radio station. I was very pleased when I made my short contact with him prior to his return home. Also, I hope I was able to impress upon you how important it is for you all to send a letter to your representative regarding HR 607. We must defend our frequencies.

It was also a pleasure to see so many new faces at the meeting. I want to welcome our new members from the VE sessions: Eric KC8IUR, Matt KD8POW, Donald KD8PTT (nice call, Don). Matt's son, James, was also at the meeting and is preparing to take his test soon. Good luck, James. We now have five members from the VE testing sessions. I also want to welcome Keith KD8GXL back to our roster.

Our next big event is Field Day. I am a bit saddened after being notified that a few of our regular participants may not be with us this year. That makes it that much more important that we start planning now. If you plan to participate during FD, please try to attend our Pre-Field Day Planning meeting at Indian Hollow Reservation on Sunday, April 10th at 12:00PM (noon.) We are looking for a few new Band Managers. We may end up with fewer stations this year but there will be no shortage of fun and food.

We are having a very interesting program at April meeting. It will be titled: Getting started with PIC Microcontrollers and will be presented by NOARS member Kelly Flowers, NN8E. There will be more info on the Meeting page of our website at www.noars.net.

JARL: Please Keep 7.030 MHz Clear for Disaster Communications

The Japan Amateur Radio League (JARL) is asking amateurs worldwide to keep 7.030 MHz and surrounding frequencies clear for disaster communications in the aftermath of the earthquake and tsunami that struck northeastern Japan a week ago today.

In a statement on its website, JARL says its headquarters station, JA1RL, is maintaining contact with stations in the affected area to help with disaster relief efforts. It says the operation is mainly on 7.030 MHz and primarily between 2100 and 1100 UTC daily, but is asking hams to keep 7.030 clear around the clock until further notice.

Rants & Raves

(Just Rants And Raves From Cleveland)

Rant Department!

- Long time ago I was talking about starting a digital mode discussion and demonstration net on our 145.15 repeater. Any interest? Let me know.
- While I'm on the subject of "5.15" You do know that repeater is up and running! Right? While it was down for a long time I heard a lot of grumbling about it! Now that it's in service all I hear is **SILENCE!** Where are all the guys who wanted that machine up and running? Give it a try folks. It's a heck of a nice machine and plans are in the works to make it even nicer! **IF** there's enough activity to justify it!
- .70/4.8/5.15 Linking? I give up! Like some of you folks I just hope to live long enough to see it!

Rave Department!

- Congrats on getting ECHOLINK up and running! It sounds good as gold. So let your friends that can use it know, so they can check into our local nets!
- Two of our NCS team (W8ADV & KD8MUW) got a note from and ARRL OO! (They do listen folks!) Before you start clucking, they were congratulations for running a well done net in a most professional and courteous manner! So big huzza to Ray and Angie!
- Morgan KD8JNK (time for some grandson bragging) Scored 100% on his annual inspection in his NJROTC unit where he is Freshman Color-Guard Commander. Thus earning him an achievement ribbon and a perfect score medal!

Well that's it for this installment! Here's hoping I can dig up some material for next months issue. But then that's up to you! Email me at wd8iqj@noars.net if you have any rants or raves or even want to ask IQJ! After being around the NOARS scene for a while. I know where most of the bodies are buried! All I need to do (with your help) is to dig them up

Congratulations! & Welcome to Noars:

- KD8PTT, Donald Haas, Avon, Oh.
- KD8GXL Keith B Cook, Elyria, Oh.
- KC8IUR, Eric Hansen, N. Ridgeville, Oh
- KD8POW, Matthew Carey, Lorain, Oh.
