## Welcome To

## NOARS Country

From everywhere you look the leaves are turning and starting to fall, this means contest time to keep us inside during the winter time, and getting the furnace fixed again along with the roof leaks from climbing around the antenna wires. I am writing this while listening to the CQ World Wide phone contest trying to pick out stations from the fray of calls into North America – this is like field day but without the good food and laughter from friends that just helped lift antenna wires up, after all that is what makes this club so much fun.

Speaking of fun the youth repeater net is now on it's way to compete with the longest running repeater net in this area, the NOARS Wednesday Ragchew net on 146.70, with the variation of things we talk about on-the-air it is anyone's guess why this idea did not take off years ago, with the merging of the internet/echolink this is surely going to put more voices out there sharing ideas about ways to make schoolwork interesting, remember when you could hardly use the phone because our kids were talking about fashion at the next school function or football game? Let them run the repeater net and ask for help when they think they want some, more time to tend to gardening and those nagging home repairs.

Unfortunately as we moved into the repeater linking project we found nearly every piece of this equipment had failed in one way or another so every step forward became 2 or 3 steps backward, along with burnt circuit boards in the 444.80 repeater where the link equipment would be connected so this project has been in slow motion the last few months sorting parts and making repairs, tower service is needed at Elyria on both top antennas as well. The Elyria switching power supply has been holding up well during repeater nets, several were put into service at the 145.15 site with the same success, however roof repairs at the apartment site have been delayed by rain so no new antenna experiments up there until these guys have finished, I have been in contact with the old site to visit and measure for putting up a back-up station in that location.

My tube radio drifts around a little so that makes it interesting, but I hear the 15mtr band opening now from eastern Europe so I look forward to adding a few new ones waiting for the leftovers of hurricane Sandy to hit the great lakes and mix with the cold from the north.

See you at the NOARS Winter Banquet and then the Winter Hamfest at the new location.

# Rants N Raves

*(Just Rants And Raves From Cleveland)*

## Rave Department

So far so good for October weather. Looks like a good old Indian summer is in effect. The grape crop failed this year but the black walnuts did real well.

Speaking of crops (how's that for a segway)? I need to put in a plug for my grandsons youth op's net on Friday night at 8pm. Lets get behind this effort. I know the ole "no kid no lids... Blah blah" heard it all before when I was a kid AND a lid but I survived and cleaned up my act. And I might add the only way I did was to hang around with some of the real class operators right here in NOARS county. Many now silent keys and many of which helped you along this hobby's winding road as well. So lets remember the Chick's, Mike's, Jim's and the Ed's who made this hobby what it is today! The kids of today are the old-timers of tomorrow! And they will be the ones climbing the towers. Lugging the gear to field day and complaining about us old farts down the road! So get on the net Friday night support the youth ops net! Make the kids welcome and show them that NOARS country is a good place to start your ham career.

## Rant Department

This repeater stuff is making me **C R A Z Y!** Nuff said (grumbling to one's self)! Time to fix the "antenna issues" are over! Does this mean linking is off till next year? Oh well perhaps by field day. If you see me don't ask my opinion!

I see that the winter hamfest move is being met with mixed emotions. Ha! It's like as if we were moving to Egypt! It's just down the road folks. Actually closer to a lot of you guys than it was and it actually has handicap access. (Including the restrooms) Generally a nice facility! I guess it's just not the old facility! I heard it all when we moved NOARSFEST to LCCC-Spitzer! And now most of us don't remember much about where it was. But the grumblers I notice weren't the ones out there doing the 3-4 hour cleanup in the 90+ afternoons at the fairgrounds either! So enjoy the new hamfest I think it's a change for the better. And I think as the new guys get involved it will be another job well done!

**Winter hamfest is officially MOVED! let everyone know!**  
**Details appear on page seven of this news letter!**
