July, 2013 - Volume 49 Issue 7

Welcome To NOARS Country

Field Day 2013 is in the history books. Thank you to everyone who came out on Saturday to help with setup. Other than a close call when one of the 40' masts snapped while being erected, the setup went pretty smoothly and, in spite a glitch with the logging network, we started the operation on time.

I personally was a bit disappointed in the turnout of operators. I had one person tell me that he felt he was intruding. We have always tried to make it perfectly clear that everyone and anyone was welcome to operate any station. Other than the stations managers, there were only three members and two guests who operated any of the stations. I hope this will change next year. On the flip side, the turnout to help setup was great! Check out the Photo Gallery on the website.

Until next month...73,

Carl W8KRF
