Prez Sez

I want to first say Happy Holidays to everyone. I hope to see a lot of you at the Holiday Banquet, there are prizes to be given away. If you don't attend you can't win or have some good food and company. It is that time of year when we think about giving, ok and maybe getting some new shiny toys wouldn't hurt. As I was thinking about what to write for this edition, with the ARRL November sweepstakes SSB fresh in my head, I happened to read the 11/20 ARRL Ohio section newsletter. <https://arrl-ohio.org/news/2023/ps-11-20-23>. pdf Congratulations to Scott Yonally, N8SY the new Great Lakes Division Director. What really was eye-opening was the statistic that only 8% of those

licensed in the Great Lakes region voted, and those were most likely the active members of a club. Thinking about that, and our current membership, 8% (maybe a tad higher) is about right for those in the club who participate, meaning they help out, volunteer etc. for committees, events etc. Which brings me back to one of my first ramblings as president of NOARS - wanting to get more people involved. I think as a club we have had more members step up who hadn't previously. But we also have members who are doing a lot and stepping back some. As you think about giving this season, think about why you joined a

Continued on page 2

No Meeting in December

Nets

NOARS nets are Tuesday nights at 8 PM on 28.370 MHz, Wednesday nights at 7 PM on 146.700 MHz, PL 110.9, and Thursday nights at 8 PM on 146.700 MHz, PL 110.9. All licensed amateurs are welcome. Participation is encouraged and appreciated.

Continued from Prez Sez on page 1

club, why you participate in the hobby and how you can help make that sustainable for the present and the future. Every little bit helps. Find something that fits your availability and time, and participate. Ok back to ARRL Sweeps, which I almost missed was happening. Being busy and not keeping up on newsletters etc., it was not on my radar. Luckily, I was in the shack/office working from home and HamClock was on my computer screen and I noticed the contest feed. If you don't have HamClock you

can see the upcoming contests at <https://www.contestcalendar.com/>. Conditions were good for US and Canada and this year I actually had Alaska and Hawaii in the log. The exchange for this contest is rather long compared to others and as I was telling someone about holding the mic and trying to type that in with the other hand they said, "you don't have a headset and foot pedal?". No, I don't and hold the mic even for net control. Hmmm maybe a shiny new toy.....

'73

November 4 VE Testing Team

Graders were Dave, KD8MXE; Bill, N8JET; Ed, KA0MRD; Bill, K2WJS. Our Greeter was Connie, K8CCS. The newest member of the VE team is Ed, KA0MRD who, having recently relocated to Ohio from

Montana, arrived sporting a cowboy hat. Thank you to the graders and greeter. We are doing good work, for as Dave, KD8MXE has said, we are "giving back to the hobby."

VE Tests Administered

The NOARS VE Team has administered seventy-nine exams over ten tests since its inception in May 2022.

Forty-nine candidates were successful. The largest testing group was nineteen at the hamfest in March 2023.

Welcome New and Returning Members

Richard Miller, KD8UKH of North Royalton continued his full membership following a complimentary introduction to NOARS.

Also joining us is Thomas Lane, WK8H from Elyria.

December 2023 Social Events

NOARS December Lunches

Saturday, December 2 at Holiday Party 5:00 PM

Tuesday, December 5 at noon at the **Golden Corral, 1519 West River Rd., Elyria**. If you like to talk and eat tasty food, the Monthly Lunches are for you. All are welcome.

No December Weekend Lunch, due to busy weekends in the holiday season. See you in January on the 13th!

Are You Due to Renew Your NOARS Membership?

Membership dues are paid for one year, based on the date you joined. Not sure when your dues expire? Log onto noars.net. Your membership expiry (expiration) date should be on the right side of the page after logging in. To renew your membership, go to Membership, then go

down to Renew Membership (using Paypal). Or you can pay your dues by sending a check or money order to the Treasurer. To pay with cash, give it directly to the Treasurer.

Oh give me a home . . .

By Chris Durkin, KE8MMY

In Canton, OH (Dec. 1968). I was born in the Timken Mercy Hospital, just a long Hail Mary pass over I-77 from the Pro Football Hall of Fame and the McKinley National Memorial of the twenty-fifth President of the United States of America.

Early on I was tinkering with both mechanical and electric equipment, adding phone lines to the house, bringing A/V equipment home from school to fix, and listening to an old shortwave receiver from the neighbor. When I was ten, Dad brought me home a nylon string classical guitar. Charmed by a very thoughtful, though unexpected gift, I mentioned to Dad that I didn't know how to play the guitar. Luckily, he had arranged for four years of classical music training, which, while not Rock-n-Roll, was still excellent training to play popular music and enchant the girls of my teenage years. I still have several guitars, amps, and kit, though I favor an acoustic 12 string with friends around the bonfire.

I've been blessed with many lives, from my first job working with metal, wood, plastic, paint, ink, and electric at a local sign shop, to my best job at Babcock & Wilcox N.E.D. (Nuclear Equipment Division) making Reactors and Steam Generators to power Navy ships. As a Jackson High School Polar Bear, I took extra college science and math at the same time as the two-year Communications Electronics course. Life took me to Geneva Ohio, and I found work in electronics, first at an ultralight aircraft manufacturer, and then a Test & Calibration Equipment manufacturer. Providing tech support to calibration labs eventually got me into the Marketing Dept, and it goes on from there!

Arizona called not once, but twice. First Phoenix, and

later Kingman Arizona, The Heart of Route 66! In addition to marketing, riding horses, and community development, I became an event promoter with Car Shows and Rodeos, Short Course Desert Racing, Air Shows, Camel parades, Belly Dancers and more.

Lorain County has held friends for over 30 years and has been home for a half a dozen or so. I love old Cruiser style bikes, and there is the best collection of trails, bike lanes, state, and local parks, and good ol' Lake Erie! Summer evenings find me catching the best sunsets after a bike ride to Mile Long Pier, with its own collection of friends and characters.

In 2019, Paul, KE8MCJ, a lifelong friend, wanted to learn about Ham Radio, and we got our Technician tickets that spring. Our VERY first Ham event was Dayton HamVvntion 2019! Overwhelmed is understated! Since then, it's been a flurry of Hamfests, license exams, YouTube videos, mounds of equipment, experimentation, luck, and a lot of fun! I truly appreciate each and every one of my ham radio family. No two of you are the same, and each of you has added to my life, many times, each in your own ways! From sage advice and caring guidance from the deep roots of our clubs, to the wit, humor, and sometimes mischievousness that keeps it light, to the inspiration of some of our youngest and newest members blazing the way to try new things, you have all truly been a family to me (...and sorry about your luck!)

Thanks to Tom and Elaine for the opportunity to share some of my life and thoughts, particularly because you may be reading this right before our club Holiday Banquet, at which I'll be celebrating my Sixty-fifth Birthday! Birthdays have never been a big deal to me, but it does make me very happy to be surrounded by a group of friends I couldn't have put together better if I tried! Being with friends is the best gift of all! Thank you!

If you've gotten this far, and haven't noticed, I'm Irish, I don't have short stories! If you know me long enough, you might understand why they say 'Englishmen think standing up, Frenchmen think while seated, and Irishmen think afterwards!'

. . . where the Buffalo Roam, KE8MMY, 73

Traffic Handling and the NTS (National Traffic System)

Traffic Handling

From Rensselaer Polytechnic Institute: The origins of traffic (message) handling are almost as old as amateur radio itself. Indeed, when ham radio as we know it was in its infancy, most households in the United States were without any of the communications devices that we take for granted today. Even as late as the 1950's some homes were without telephones and communications relied upon friendly neighbors who would relay information to another community member who was without a telephone. Almost every town had at least one radio nut who had built his crude transmitter from common parts and a few copies of Popular Electronics. Amateurs in those days felt compelled to be public servants due to their unique talents and were almost always willing to deliver messages to and from other members of the community. At that time, radios were only good for a few hundred miles of reliable communications due to frequency and equipment, so messages were normally relayed between many stations before reaching their final destination. Thus, the origin of the American Radio Relay League, in case you were wondering how they came about that name. At first there were many unconnected radio operator networks and messages might take quite a few turns to get from points A to B so it became obvious that a universal system of message relaying and format would be beneficial to the public. The evolution of the National Traffic System as we know it today was actually developed in the past 50 years. There were competing groups that met and finally decided upon a plan that would move message traffic efficiently across the country.

Principles of Operation

Network operations are broken down into five basic types of operation as follows:

LOCAL NETS operate in small areas such as communities or parts of a county or metropolitan area. Today, they are typically VHF 2 meter FM operations meeting at regular times, daily or weekly and they exist primarily for local delivery or pick up of

message traffic. They often operate on a more informal basis and provide time for training as well as chat. Local nets have a liaison assigned to the next step up in the message chain who will bring in or take out messages to the section level.

SECTION NETS operate either in partial state areas or have full state coverage and have many stations reporting in on a regular basis to pick up and deliver messages for their own communities and local nets. These nets normally operate in the HF range (often both SSB and CW) and are a bit more disciplined than the local nets. They too have stations assigned to bring traffic in and out of the net up to the next level of operation.

REGION NETS cover larger areas often a call area. For instance, the Third Region Net consists of Eastern PA, Western PA, Delaware, Maryland and the District of Columbia.

A net will consist of a net manager, net control station, representatives from each section and one or more liaison stations to handle in and out going messages. The net activities are normally highly structured (although there is some deviation to this rule) and can restrict check ins for the sake of brevity.

AREA NETS are at the top level of the NTS covering a lot of territory. For example, the Eastern Area Net consists of representatives of region 1, 2, 3, 8 & 11 (Canadian Seaboard Provinces). Again, there is a net manager, assigned net control stations and instead of liaison stations there are assigned TCC (Transcontinental Corps) stations that handle the movement of inter-area traffic on pre-arranged schedules.

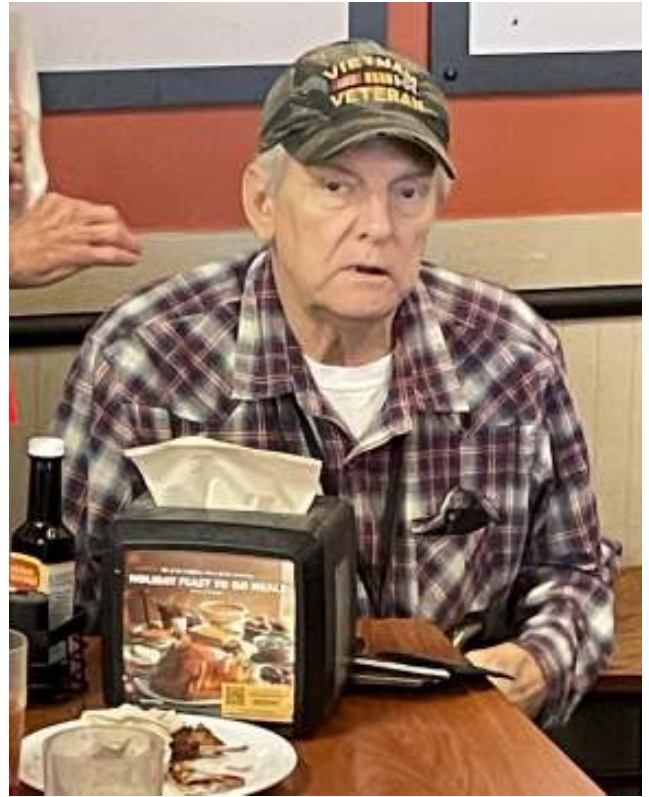

National Traffic System

The ARRL website has some good information about the National Traffic System at <https://www.arrl.org/nts> Scroll down and access a PowerPoint.

November Tuesday Lunch

The fifteen of us at the November Lunch had a fun, tasty time. Joining us for the first time was Stephen, N8WB. Joining Ed, KA0MRD were wife Ronda and daughter

Pearl. The Tuesday Lunches are always on the first Tuesday of each month. Neither membership in NOARS nor a ham radio license are required.

Weekend Lunch

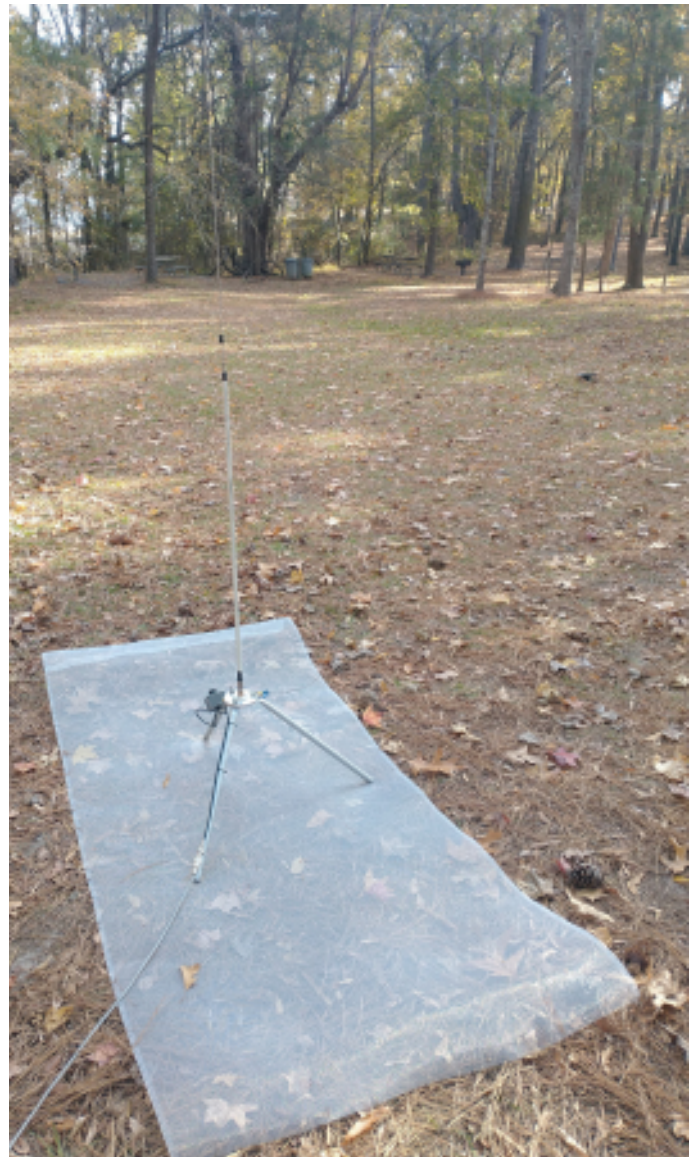

Ann and Dan bring their daughter, Andrea, Into the POTA Fold

Ann, KA8ZEP and Dan, W8AJF brought their daughter, Andrea, KC8SHA along to do POTA while visiting her in North Carolina. They all had a great time in two different

sites, which included Ann teaching Andrea how to do FT8. Awesome!

Pets of Ham Radio: Jack Porter

This is our Boston Terrier, Jack, who will be twelve in December. Jack is totally blind, very loving and a great

companion to Pat and Tom Porter, W8KYZ.

If you have any pets you would like club members to know about, send a photo and some information about them to the NOARS Log editors:

Elaine: ewilkinson1951@gmail.com

Tom: thomasfwilkinson@gmail.com

NOARS Membership Meeting Minutes: November 20, 2023

Submitted by Connie, K8CCS

The meeting was held in person at North Olmsted Public Library, and via Zoom. It was called to order at 7:00 p.m. by club President John W8LYO. Total number of people in attendance: 26 (18 attended in person; (8 attended via Zoom).

Pledge of Allegiance.

Introductions and roll call of all in attendance.

Motion to accept meeting minutes as published in the NOARS Log was made by Andrew KE8WMS; Seconded by Josh KE8YUG. Minutes accepted.

COMMITTEE REPORTS:

Treasurer's Report – Tom W8KYZ

Expenses:

\$80.07 – Windstream for November

\$25.00 – Reimbursement for gas card for NOARS Fest

\$13.08 – Stamps

Motion to accept the treasurer's report was made by Bill K2WJS; Seconded by Andrew KE8WMS. Treasurer's report was accepted.

Suggestion was made to make a \$100 donation to Second Harvest Food Bank. A discussion was held as to whether we could up our donation, taking into account any upcoming expenses we may have. We will keep our donation the same this year. Motion made by Bryan N8OOF; seconded by Paul KE8WHG. Motion passed.

Newsletter – Tom N8FDY - The deadline for articles, photos, etc. is November 25. Send us your POTA pictures and we will publish them. We will have lots of room for ads since there will be several that will fall off. If you have anything to sell, please submit an ad.

Parliamentary – Tom N8FDY – Nothing new. We do not need an election since we only had one candidate per position. The Annual Budget is due in January 2024. The board will meet to work on the preliminary budget. This budget will help explain where all the money goes.

Club Property – Carl W8KRF – No change in club property. The antenna analyzer is still out. If anyone else needs it, just let me know.

Membership – Carl W8KRF – We have 2 new members who paid by PayPal – up to 131 total members. Membership dues are based on the date you joined for one year. Some will expire on 12/31/23, some will expire on a different date based on when you joined. Go to your profile on the website, and it will have the date that your dues expire. You can pay your dues through PayPal, or by check/cash to the Treasurer.

Website – Carl W8KRF – The website is up to date.

Repeaters – Carl W8KRF – No change.

Hamfest – Carl W8KRF – Wants to step down so he can buy a table to try to sell some items and enjoy the Hamfests. We need a committee. We need new signs since we are at a different location at the college. Carl will work with a committee to get the preliminary steps moving to get the Hamfest set up, including reviewing the site and floor plan layouts.

Social Committee – Elaine KC8FOS

NOARS Tuesday Lunch is December 5 at noon, Golden Corral in Elyria. Everyone is welcome.

NOARS Weekend Lunch in December – TBD.

Programs – Elaine KC8FOS – In January, Chuck K8CVM will do a presentation regarding National Traffic Service.

VE Testing – Elaine KC8FOS – November VE test, we had 1 Tech and 1 General, both of which passed.

Continued from MEETING MINUTES on page 15

Holiday Banquet – Andrew KE8WMS – December 2, 2023 at Houlihan’s in Westlake from 5 to 8 p.m. The price is \$30 per person. Andrew KE8WMS will collect the fees. Deadline to pay is November 29, 2023. There will also be a \$25 White Elephant exchange at the party for those who would like to participate.

Holiday Banquet Prize – Dr. Jack N8NDL has donated a COMPACTenna base system (2M/440+ antenna and CompacCounterpoise). Thank you for your generosity and support!

Nets – Jeany KC3QND (not in attendance) She will be providing the December Net Control Schedule.

Old Business – No old business. We have two new board members for 2024: Treasurer, Eric KE8VZA and Connie K8CCS will stay on as Secretary.

New Business – No new business. Paul KE8WHG suggested that since we are not having a 50/50 raffle at this meeting, could we donate the money that would have been collected to the Salvation Army. A hat was passed around for this donation.

Motion to Adjourn the meeting was made by Andrew KE8WMS; Seconded by Elaine KC8FOS.

Meeting Adjourned 7:30 p.m.

Presentation – Chuck K8CVM presented a program regarding ARES.

THE BEST GEAR...RIGHT HERE!

Check out our new, more spacious Showroom Monday through Saturday, 9 am to 5 pm. Or place your orders and pick them up at the curb. Here's how:

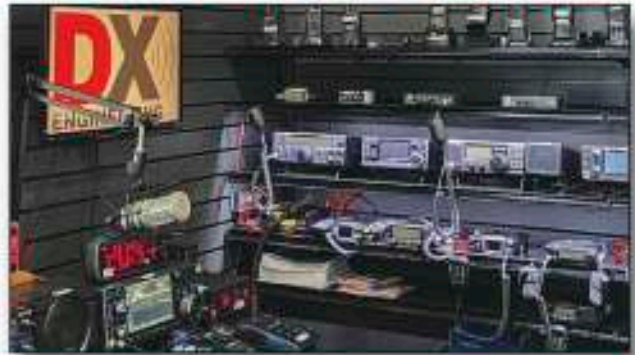

- Pick-up available from 9 am – 8 pm, Monday-Saturday and 9 am – 7 pm, Sunday.
- Place your order at DXEngineering.com or by calling 1-800-777-0703. All orders must be prepaid.
- Pull into a designated curbside pickup space in front of the Summit Racing Retail Store. You will need valid ID, your order number, and the physical credit card you used or Pay Pal receipt.
- Only the person who purchased the item may pick up the order.

We look forward to seeing you!
